Review: Murata and Chittick supply an exemplary introduction to Islam through the classic modes of practice, faith and spirituality as well as the Islamic view of history. Interweaving the principle teaching of the Qur'an and the sayings of the Prophet, the wellsprings of the tradition, the authors provide intellectual and aesthetic appreciation of these principles and historical context as well. It is the most successful introduction to Islam for a Western audience produced to date and should become a widely use text. It has good trade potential because of its versatile style and authoritative nature.

Review: This welcome reissue of An Introduction To Sufi Doctrine, under this less forbidding title offers one of the best introductions to the main mystical doctrines of Sufism, especially that of the great theosopher, ibn 'Arabi. Burckhardt provides the basic terminology not only with definitions but with a care to show their inner economy and practical application to religious practice. Highly recommended

Review: Gaffney offers a careful analysis of the nature of religopolitical discourse from the pulpit in modern day Egypt. Distinguishing between, the scholar ethicist, the Sufi mystic, and the militant holy warrior, Gaffney demonstrates the conflicting levels of appeal these styles of preaching have, and how this affects the rise of Islamic fundamentalism. Recommended for its nuanced understanding of the role of preaching in popular political discourse.
